# AKKASH DHARSAUN

Full stack ,React js developer

+918015874936
akkashdharsaun02@gmail.com
Alanchi , kanyakumari

Full Stack Developer with hands-on experience in frontend and backend development, building high-performance web applications. Skilled in problem-solving, team collaboration, and delivering user-focused solutions. Passionate about learning new technologies and creating impactful digital products that drive business success.

## WORK EXPERIENCE

**Fullstack Intern, NerXpire Technologies – Nagercoil, IN**

- Gained strong hands-on experience in web application development, working on realworld projects from start to deployment.
- Worked on frontend-backend integration, ensuring smooth data flow and proper application functionality.
- Assisted in creating and consuming RESTful APIs for handling application data.
- Gained hands-on experience in version control with Git and GitHub, ensuring smooth project collaboration

## EDUCATION

**Bachelor of Engineering (B.E.): Computer Science and Engineering, Bethlahem Institute of Engineering - Karungal, Tamil Nadu GPA: 7.89 / 10.**

## SKILLS

- **Technical skills** : React.js , Node.js , Express.js , REST API Development , python , java , Mysql , postgreSQL , mongoDB , Git , Github
- **Application Development** : Database design , JavaScript , Object-oriented programming , Software testing , Debugging

## PROJECTS

**Civic Issue Reporting Web Application | (MERN stack),**

- Designed and developed a full-stack web application to report and track civic issues such as road damage, water leakage, and electricity problems.
- Implemented user-friendly interfaces with responsive design for seamless issue submission and real-time status tracking.
- Integrated backend APIs using Node.js and Express with MongoDB for efficient data storage and management.
- Enabled users to upload images, view reported issues, and receive updates, improving community engagement and problem resolution.
- Live Demo: https://peoplevoice-webapplication.onrender.com

**AI-Based Career Guidance System (Full Stack),**

- Built an AI-based career guidance web application using React, FastAPI, and PostgreSQL to assist students in identifying suitable career paths.
- Designed a rule-based intelligent guidance system that analyzes user inputs such as interests, personality assessment, skills levels, and preferences to provide career recommendations.
- Implemented secure data storage and retrieval using PostgreSQL for user responses and recommendation results.
- Live Demo: https://carrerguidance-aiproject.onrender.com,

**SupplyGuard | Full Stack, React, FastAPI, Graph Database,**

- Built a graph-powered supply chain risk platform using React, FastAPI, and CognoDB/Neo4j to analyze supplier dependencies.
- Implemented supplier failure simulation and multi-hop dependency analysis to identify affected components and downstream products.
- Developed an interactive dependency graph and risk assessment system, and deployed the application using Render
- Live Demo: https://supplyguard-6pd4.onrender.com
